M203grips are now available for direct shipment to IRAQ & AFGHANISTAN

If you can get a FedEx package, you can get M203grips.

It is easy and fast. Delivery is about 2 weeks after we receive your order. There are just 3 requirements:

- The order must be from a U.S. Military Unit.
- Payment must be made by a U.S. Military Unit.
- The U.S. Military Unit must be the official end-user of the order.

This ordering process CAN NOT be used by any individual person. U.S. law prohibits it and we will refuse any non-compliant orders.

Step 1: Email info@m203grip.com with the description and quantity of items you want to buy. Include your complete shipping address. Use the subject: "Deployed Ordering".

Step 2: We will reply with a "delivered to you" price quote and estimated delivery date.

Step 3: When you accept the quote, send us an order by email. We can accept:

- a government purchase order (Standard Form 1449)
- a purchase letter and card information, if paying by government credit card. (We will send you a sample purchase letter to use as a guide).

Step 4: About 2 weeks later, you will receive your M203grips from FedEx.

U.S. Military Units deployed in other areas can follow the same procedure. Document processing and shipping times may vary. We will quote you specifically.
