

GET A GRIP WITH THE

M203 GRIP

TACTICAL GRIP

ACTUAL SIZE

THE FORWARD HANDGRIP FOR THE M203 IS NOW AVAILABLE!

40mm operators now have all the advantages of the Forward HandGrip so popular on the M16 and M4 rifles.

Instantly attaches to any M203 grenade launcher. No tools or modifications required.

Fits the M203, M203PI and M203A1 launchers with long or short barrels.

Provides a rock-solid grip and detaches instantly. Optional flashlight accessory available.

Lightweight and rugged, the M203grip is available with a handle that features a waterproof battery compartment that holds (2) AA or (3) N or (2) TYPE-123 3-volt batteries.

M203 GRIP

Shooters need a good grip to get a good shot. The M203grip gives you the best possible grip on your rifle/launcher combination. With the M203grip you acquire targets faster and shoot more accurately because you have better control of your weapons.

The ergonomic advantages are obvious. Operators with better control of their weapons are more maneuverable and safer. A better grip means carrying and using the weapons with less effort, allowing operators to stay functional and alert longer.

Available with your choice of handles: the Tactical handle for the lowest profile, the Classic handle with a familiar shape and size, and the Battery-storage handle with its watertight compartment.

The M203grip can be used left or right handed and protects the shooter's front hand when firing while prone. It removes easily for weapons cleaning or maintenance and attaches quickly, without tools.

The M203grip provides operators the benefits of increased capability and better maneuverability, with improved accuracy and safety. The M203grip belongs on your launcher.
